

EXPERIENCE WILMINGTON COLLEGE

Wilmington
College

www.wilmington.edu

A Wilmington College education prepares students to work with others and value diverse opinions.

Dr. Michael Goldcamp offers instruction in the Chemistry Lab.

EXPERIENCE

WILMINGTON COLLEGE

STUDENTS

More than 1,000 students enrolled, with over 800 students living on main campus in five residence halls, two apartment style complexes and several special interest living units.

ACADEMIC EXPERIENCE

A student-to-faculty ratio of 13:1 with 60 full-time teaching faculty, of whom 80% hold the highest degree in their field.

ATHLETICS

18 intercollegiate sports in NCAA Division III, Ohio Athletic Conference. Cheer, Equestrian (IHSA) and Club Sports.

HANDS-ON LEARNING

Students complete thousands of hours of practical application in their field.

MISSION

The mission of Wilmington College is to educate, inspire and prepare each student for a life of service and success.

OUR CORE VALUES

Integrity

Community

Diversity

Excellence

Peace & Social Justice

Respect For All Persons

Service & Civic Engagement

WHERE

We are located in southwestern Ohio between Cincinnati, Columbus and Dayton. This proximity to these cities means great internship opportunities and a broad job market.

HOW

Hands-on Learning at WC ties theory and classroom lectures with experiential learning opportunities outside the classroom. These not only enhance learning but also serve to make graduates more marketable.

WHAT

By building community we are able to create a true "home away from home," with a real sense of belonging and commitment to each individual student.

WHO

Although founded by Quakers, we welcome all religious affiliations. Quaker values reflect universal spiritual principles that support positive character development for students of all religious backgrounds, and our student body is diverse in this way.

Environmental science students have an opportunity to spend part of their Winter Break studying in the rain forests of Costa Rica.

Study Away

The College emphasizes the value of learning outside the classroom with travel opportunities that take our students from such local resources as Cincinnati and Columbus to national cultural centers like Atlanta and Washington, D.C., and numerous locales outside the country. We accommodate students' desire to experience other countries and cultures through both short-term and semester-long travel opportunities. Recent College-sponsored trips have featured destinations in Colombia, Japan, Kenya, Ireland, Costa Rica, Belize, Peru, Spain and England. WC subscribes to the proverb, "Better to see something once than hear about it a thousand times."

SEMESTER STUDY ABROAD

WC students have spent terms studying in China, Australia, Austria, Japan and Italy, to name a few.

SHORT-TERM SPRING BREAK & SUMMER TRIPS

Numerous countries in Europe, Central America, Africa and South America

SERVICE-FOCUSED EXCURSIONS

Belize, Costa Rica, Kenya, Detroit and Chicago

ANNUAL DIVERSITY + INCLUSION TRIPS

Monsanto
National FFA Organization
NFL Summer Internship Program
Ohio Farm Bureau Federation
Personal Trainers World
Select Sires
The Wilds
USDA
WBNS 10 TV
Winfield United
World Equestrian Center
Wright Patt Air Force Base

Real world experiences are at the center of a Wilmington College education. We have a focus on bettering our community through professional partnerships.

As a career-oriented liberal arts college, this focus on practical, applied education has long been our specialty. Our small size facilitates hands-on learning so that our students are prepared to hit the ground running at graduation – and employers know it. Combined with the academic excellence that consistently ranks us in the top tier of private colleges, it's a winning combination.

Internships

Given our location close to Cincinnati, Dayton and Columbus, we have outstanding internship opportunities; having been around for over a century has helped us build this strong network.

Grad School Preparation

Our small size means more opportunities for undergraduate research, which sets your application for admission apart from the others. We regularly have students presenting at national academic conferences before they graduate.

Alumni Connections

Our students network with alumni who are professionals in their chosen field. Our engaged alumni community wants to know and support our students as they transition from college to "the real world."

The College offers annual trips to Washington, D.C., where students can lobby their elected representatives and members of Congress. An associated program focuses on agricultural advocacy.

EXPERIENCE ACADEMICS AT WC

Agriculture Major and Minor

Concentration Areas

- *Agricultural Business*
- *Agricultural Leadership & Communications*
- *Agronomy*
- *Animal Science*
- *Resource Conservation and Regenerative Agriculture*

Agriculture Education (See Education)

We emphasize the understanding of concepts through their application outside the classroom as the most effective way of learning. Our hands-on learning opportunities can take you from labs in our Center for the Sciences and Agriculture to our greenhouses and 267-acre, crop and animal production farm.

Related Minor
Sustainability

Graduate Pathways:
- *Pre-Veterinarian Science*

Equine Business Management

Major

Our core courses in both equine and business provide a foundation centered on communication, business management and science, as it pertains to the equine industry. These concepts learned in the classroom are further illustrated through opportunities for hands-on learning with horses in our Equine Center.

Related Minor
Equine Studies

College offers
more than 40
areas of study
including multiple
pre-professional
pathways and
minors.**

Exercise Science Major and Minor

Concentration Areas

- *Allied Health*
- *Pre-Athletic Training*
- *Sport Performance*

Our exercise science is designed to prepare and train you for leadership positions within the fields of sports, recreation, physical fitness and allied health. Required internships offer additional hands-on experience in the field.

Related Minor
Coaching

Sport Management Major

Sport Management is a four-year program of study designed to prepare students for employment in wellness, sport, and sports-related enterprises. Students enrolled in the major focus on business skills such as financial management, marketing, and legal questions associated with the field as well as a solid foundation of philosophy, principles and objectives of the sport and wellness industry.

A man in a grey blazer and blue pants stands in a classroom, gesturing with his hands as he speaks. Several students are seated at desks in the background, some using laptops. The room has a whiteboard and a projector screen visible.

Sport Management students have hands-on learning opportunities to work at the Super Bowl, College Football Playoff National Championship and March Madness Final Four.

Dr. Jimmy Mattern discusses staging major events with sport management students.

The study of literature offers insight into cultures, places and times, as well as the human condition.

Dr. Ursula McTaggart chats with students from her English class.

Business Administration

Major and Minor

The Business Administration major offers students a hands-on experience in and outside of the classroom. During your time in our program you will be taught by faculty with professional expertise in each subject area, which allows for real-world examples to be used to support in-class learning.

Concentration Areas

- Finance
- Management
- Marketing

Accounting

Major and Minor

The accounting program at Wilmington College provides a broad-based education that will expose you to essential principles and concepts that can readily be applied to your career. You will also develop versatile administrative and analytical skills that can be used in the world of business and finance.

Related Minor

Economics

Spanish

Major and Minor

The United States is the fourth largest Spanish-speaking country in the world. Fields ranging from business and political science to law, education, social work, agriculture, financial services and criminal justice all are in need of Spanish speakers.

English

Major and Minor

Studying literature opens your world, introducing you to other cultures, places and times. The reading, writing and critical thinking skills you will develop will help prepare you for professional careers and graduate study.

Related Minor

Professional Writing

History

Major and Minor

As a history student, you will be empowered to closely examine various cultures and historical periods, noting their distinctiveness, and, based on lessons learned from the past, draft unique responses to the issues we face today.

Related Minor

Race, Gender & Ethnicity

Religion & Philosophy

Major and Minor

Studying religion at Wilmington College offers the opportunity to explore not only the Quaker tradition informing the history and mission of the College since its founding, but also the broader Christian tradition and other major religions of the world.

Concentrations

- Ecological Ethics
- Peace & Non-Violence

Related Minor

Peace Studies

Education

Major

As part of our Teacher Education Licensure Program, you will be immediately immersed in the teaching profession, with field experiences your first year as a Wilmington College student. You will gain not only a thorough knowledge of the content area(s) you will teach, but also an in-depth view of teaching and learning that maximizes positive student outcomes.

Teacher Education Licensures

- Primary
- Primary Intervention Specialist
- Middle Childhood
- Adolescent through Young Adult
- Intervention Specialist
- Education Career Tec/Agri Science

Education Studies (Non-license Degree)

Major

Education Studies students have the opportunity to tailor a specialized curriculum that best meets their individual learning and career goals. This includes participating in a minimum of two paid internships, as well as selecting from a variety of courses in general education methodology and philosophy, inclusive instructional philosophy, school law and special education.

Concentrations

- Diverse Learning
- Teaching & Learning

Political Science

Major and Minor

Students majoring in political science study the institutions and processes societies create to make collective decisions about human problems. You can participate in the annual Spring Lobby Weekend in Washington, D.C., a signature hands-on learning activity at WC.

Concentrations

- *Political Studies*
- *Food Policy & Agriculture Advocacy*

Related Minor

Sociology

Psychology

Major and Minor

The psychology major is designed to give students the academic foundation for success in graduate study and for applied areas of psychology such as social work, counseling, education, business and human services.

Related Minor

Sociology

Criminal Justice

Major and Minor

There are numerous career opportunities in the Criminal Justice field, including law enforcement, identification and apprehension of suspects, and the reintegration of convicted offenders into society. A background in criminal justice also provides an excellent pre-law major.

Related Minor

Sociology

Social Work

Major and Minor

Employment demands for social workers are increasing exponentially, making this an excellent time to join the social work profession. Upon completion of our undergraduate curriculum, you will be eligible to apply for licensure as a "Licensed Social Worker" in Ohio.

Related Minor

Sociology

Theatre

Major and Minor

Creative thinking, teamwork, effective communication and problem solving are all life skills employers look for in hiring the most qualified applicants. WC offers a broad experience that also shows you how gaining expertise in these areas can apply in other fields.

Related Minors

Art
Music

**WC places
a premium
on student/
faculty research
opportunities.**

Communication Arts

Major and Minor

The organizational communication concentration is designed for those pursuing careers in such fields as public relations, journalism, marketing, brand management, social media management, and corporate communications. The digital media production area provides a foundation for careers in digital art, photography, videography, website design and graphic design.

Concentration Areas

- *Organizational Communication*
- *Digital Media Production*

Related Minor

Music & Media

Mathematics

Major and Minor

Learning mathematics is more than equations on the board, more than a pencil and paper problem. Our students realize that math has real-world application and is fundamental to how the world works.

Major Concentration

- *Data Analytics*

Related Minor

Data Science & Analytics

Biology

Major and Minor

Hands-on learning in the laboratory is at the heart of our broad-based biology major, which is designed to prepare you to excel in graduate and professional school, teaching biology and immediately entering a science-related industry. You will graduate from our program with a major research experience.

Major Concentrations

- *Environmental Science*
- *Health Science*
- *Life Science*

Graduate Pathways

- *Medical Sciences*
- *Pre-Veterinarian Science*

Chemistry

Major and Minor

Since science and technology are driving forces in today's world, persons proficient in these areas are poised for success. A major or minor in chemistry from Wilmington College provides you with the knowledge and, equally importantly, the practical skills required for embarking upon graduate studies and entering the workforce.

Visit our website to

- Diversity & Inclusion
- Student Organizations

SAFETY

- Campus Safety
- Title IX
- SAFE (survivor advocacy)

EXPERIENCE

AFFORDABILITY AT WC

Our price & value are leading the way in Ohio among private colleges.

Wilmington College offers an Affordable cost to attend.

Many of our students receive federal and state grant funds in addition to scholarships and awards. This is money that does NOT have to be paid back!

We strongly encourage you to apply for financial aid using the FAFSA and review your full college financing plan before making a decision. At most private colleges, including ours, the final cost of attendance is often much lower once financial aid is applied.

Generous scholarships and awards ensure our commitment to financial aid accessibility

Our hands-on approach to education prepares students for in-demand careers upon graduation

One of the most affordable private colleges in Ohio

Many students receive grant funds over and above scholarships and awards

Private colleges like WC offer more financial aid than most large state institutions

99% of Wilmington College students receive Financial Aid

EXPERIENCE SUCCESS AFTER WC

We believe that the college experience works best when you support students with the maximum amount of personal attention from faculty and staff. This ongoing commitment to individual development is ideal preparation for a successful life after college.

Values-driven learning is a fundamental part of this commitment. As parents know, raising responsible and successful young adults requires a lot more than academic education.

We encourage and nurture character development by enriching our curriculum with values that educate “the whole person”: integrity, respect, excellence, community, diversity, social justice and service/civic engagement. We believe that landing a good job after college isn’t the only important outcome – so is being an exemplary citizen of the world.

This kind of environment gives our graduates the “winning advantage,” by providing real, ongoing, dedicated focus on each individual student and their dreams and goals – just like home. That’s why we call this the “home field advantage.”

Wilmington College
transforms students
into leaders ready to
serve the pressing
needs of society.

SCHEDULE A PERSONALIZED VISIT

Visits will include an information session, including the following:

- Admission requirements
- Scholarships & financial aid
- Personal tour of campus

You can personalize your visit with the following:

- Meet with a faculty member in your field of study
- Meet with an athletic coach
- Tour our academic farm and equine center
- Engage in a student experience (shadow a current student, attend a class, schedule an overnight visit)

JOIN US ON CAMPUS FOR A PROGRAM VISIT DAY
