Diploma Information

Wilmington College has recently partnered with Instructure, to provide our diploma services. Once completion of all degree requirements has been verified and your financial obligations have been met, the Office of Academic Records will provide Instructure with your degree information. Please ensure that your email and mailing address are correct in WC Portal to ensure that you receive your diploma.

Instructure offers a digital diploma as well as a paper diploma. Once Instructure receives our file, you will receive an email from them with a link. If you would like a digital diploma, you need to click on the link, create a password, and download a secure PDF of your diploma. They will also ask you to verify your mailing address. Your paper diploma will be mailed to you. Please allow 45 days for your paper diploma to arrive. These directions will also be included in your email from Instructure.
